PRODUCT: ZINC PHOSPHATE MMC

Product Description

Zinc Phosphate MMC used in protective coating systems and is highly versatile and more economical to use than commercial zinc phosphate.

Zinc Phosphate MMC can exhibit a higher level of corrosion protection than commercial zinc phosphate at an equal weight replacement.

Typical Physical Properties

Parameter	Values	Method
Specific Gravity	3-3.6 g/Cm ³	IS 33 1992
Oil Absorption	17-27 g/100 gm	IS 33 1992
Bulk Density	0.5-0.7 g/Cm ³	IS 33 1992
pH of Aqueous Extract	7-9	IS 33 1992
Moisture Content	Max 1.0%	IS 33 1992
Residue on sieve (45 μm)	Max 0.5%	IS 33 1992
Loss on Ignition	4.5-6.5%	IS 10897-1984

Applications

- Primer
- Marine Coating
- Coil Coating
- Etch Primer
